

Meeting minutes for Day of the Huntress, day 6 of the month Ivastaen in the year 5111
Members in Attendance: Ranpalandil, Anta, Kizalia, Rasti, Landrat, Aisalt

Guests and Prospective Members: Ohnus

This week's meeting was held in Willow Hall's new fireside room. Through the onyx-beaded forest green curtain off the Great Room.

Ranpalandil called the meeting to order.

Rasti recites:

"As of my last report, on the Day of the Huntress, the 1st day of Olaesta, in the year 5111, Willow Hall's coffers held 355,267,272 silvers." "Cheas and Willowbee was inducted into the Hall, Each paid the necessary 25,000 silver initiation fee." "Ranpalandil made deposits totalling 100,081 silvers." "And I deposited 48,081 silvers more from a little hunt Ran and I went on after the last meeting." "Willow Hall closed its coffers on 355,465,434 silvers." "Please give generously to Willow Hall."

Ranpalandil says, "Kizalia and Anta, thank you both for a wonderful event last week."

Kizalia says, "Hope everyone enjoyed it."

Anta says, "Was all Kiz, I was just there to look menacing."

Kizalia says, "Crowd control."

Rasti says, "I report that Kiz financed the event from her own pocketbook and should be commended for her generosity."

Kizalia says, "I know how Rasti is about his coins."

Ranpalandil says, "If anyone is interested in filling any of our open spots just let me or Anta know."

Ruh has indicated that he wishes to run for the Master-at-Arms position.

Kizalia asks, "What does that position do exactly?"

Rasti says, "Pound people."

Ranpalandil says, "Suppose to be a leader in invasions."

Kizalia nominated Nattor for the position which was seconded by Aisalt.

Ranpalandil says, "Well, we need to get to work on an annex design."

Our Ta'lllistim Annex won by a landslide in the house vote on which annex should be updated. We need the membership's input on how we should design it. Aisalt and Landrat were kind enough to share their designs with us:

"Two large oaks stand sentinel on either side of the widening trail, gentle keepers and old warriors. Several dark red rosebushes grow around the bases of the trees, their tenacious arms winding around the trunks, cascading garnet-hued blooms overhead in drifting masses. Off to the northwest side stands an old majestic black willow tree, with withes hanging to the ground, and so thick as to prevent looking in to the trunk"

"The massive trunk of this ancient willow allows for the tree house you see the floor of and you walk in. An elven doorman sits beside the trunk, right near a large hole, working on a carving."

"Go hole Inside you see a ladder going up the inside of the tree. obvious exits out"

"You climb the ladder and exit into a large greatroom with a stone fireplace and chimney rising from the center. you also see two curtained alcobves off to one side""

"You climb the ladder and exit into a large greatroom with a small firepit and a copper chimney rising from the center. you also see two curtained alcoves off to one side between large branches""

Rasti asks, "So we can have a 3 room annex exclusive of the lockers correct?"

Ranpalandil says, "We can add rooms."

Ranpalandil says, "But I think he said two rooms standard and one of those might be the locker."

Aisalt softly says, "I was thinking the lockers could be in a cellar type door down among the mighty roots which are used as shelves for the lockers."

Rasti asks, "How about a pot belly stove?"

Ranpalandil says, "Pot belly stove sounds like it might fit."

Aisalt softly says, "Would a huge ancient willow tree support all this though?"

Rasti says, "Well if it's huge enough and ancient enough I guess so."

Ranpalandil says, "Willows are kind of brittle."

Landrat darkly says, "Iffin it big nuff fer ye to climb a ladder in de trunk, love it be big nuff."

Rasti says, "And they get blown around a lot."

Aisalt softly says, "Have the annex shake from time to time."

Ranpalandil says, "Might get sea sick up there."

Rasti says, "And a woodpecker could rap the trunk."

Landrat darkly says, "Dey tends to have a center point from where de main branches come out allowinf for a flat spot for de floor."

Aisalt softly says, "I'm not overly knowlegeable about willow trees."

Aisalt softly says, "It would look JUST like the insignia for Willow Hall that we have."

Anta asks, "Dead and dusty?"

Landrat darkly asks, "Ran does what Alyais said limit us to two rooms only? could it not be two rooms plus lockers?"

Ranpalandil says, "He said they could be expanded."

Ranpalandil says, "So it may be just a common room and a locker that we get for the standard rate, but if the cost of another room we could add another room."

Aisalt softly says, "We could eventually put in a swimmin hole and have a sturdy withe that we swing out over the hole in."

Aisalt softly asks, "How many IPs does the Hall have?"

Rasti says, "88."

Aisalt softly says, "Will take us quite a while to go through all those."

Ranpalandil says, "Not if we get busy dreaming."

Anta says, "Of course we do have supplemental IP requests, so that helps."

There was continued discussion of annex renovation plans before Ranpalandil adjourned the meeting.
